Equal weight per task/suite; not per sample. Ranges are not confidence intervals. Missing/incomplete cells are withheld. Joint Norwegian results do not count as two languages. Change is last minus first checkpoint, in percentage points (not relative percent). All plots share the same horizontal scale.

Checkpoint steps: Epoch 10: 2877261 (epoch 10.000000); 2900K: 2900000 (epoch 10.050805)

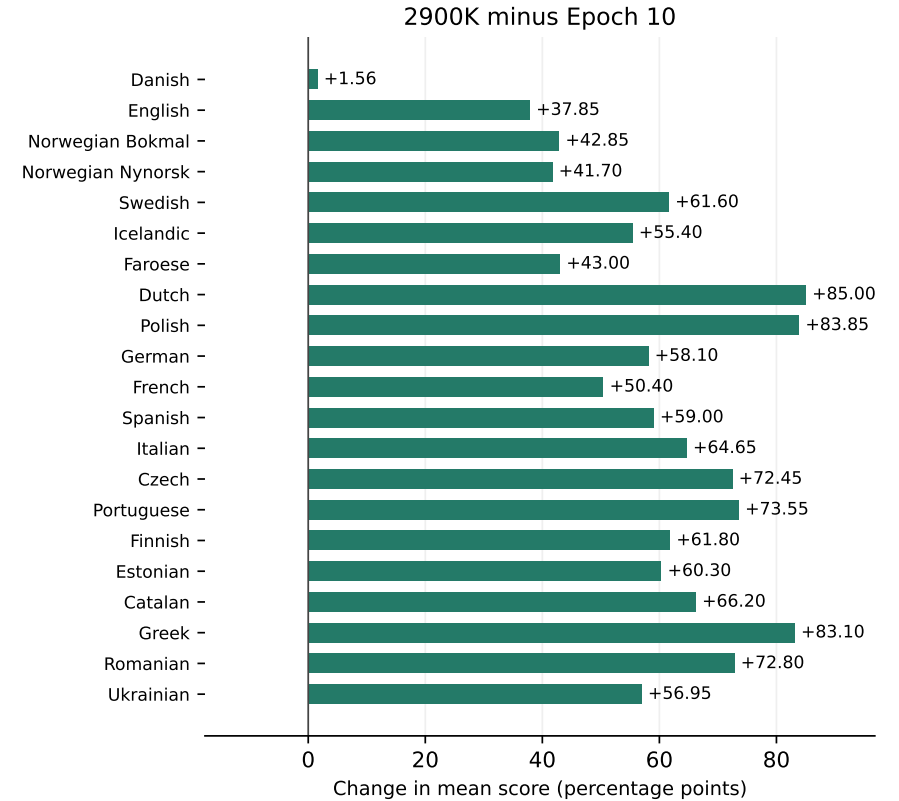

Primary scores: EuroEval: accuracy; DFM: semantic macro-F1 for acceptability, exact match for correction, strict instruction accuracy for IFEval, answer F1 for QA, chrF3++ for summarization.

Equal weight per task/suite; not per sample. Ranges are not confidence intervals. Missing/incomplete cells are withheld. Joint Norwegian results do not count as two languages. Change is last minus first checkpoint, in percentage points (not relative percent). All plots share the same horizontal scale.

Checkpoint steps: Epoch 10: 2877261 (epoch 10.000000); 2900K: 2900000 (epoch 10.050805)

Primary scores: EuroEval: f1; DFM: semantic macro-F1 for acceptability, exact match for correction, strict instruction accuracy for IFEval, answer F1 for QA, chrF3++ for summarization.

Task membership and source paths are recorded in the accompanying JSON evidence file.
